
Efremov A. BUDGETARY FEDERALISM IN UNITARY UKRAINE: REALITY OR MYTH? / //Economy and Management.-2008.-№6.-P.7.

The author considers basic terms and possibilities of applying budgetary process based on budgetary federalism principle in structural subdivisions of local government in Ukraine. It has been discovered that in Ukraine which is the most centralized unitary state of Europe the idea of switching to the budgetary process based on principle of budgetary federalism is not real. It has been proved that realization of the above mentioned principle will be real, if Ukraine changes political system – unitary state principle will be replaced by federalism like in the USA. The article also contains some proposals on budgetary process of municipal organizations in federal Ukraine.
